<b>Total</b>	<b>23,572</b>	<b>22,914</b>	<b>46,486</b>

Removals include Returns. Returns include Voluntary Returns, Voluntary Departures and Withdrawals Under Docket Control.

Removals Exclude Expedited Removals with no Detention.

"Others" include: Voluntary Departure - Unexpired and Unextended Departure Period; Voluntary Departure - Extended Departure Period; Expired Voluntary Departure Period - Referred to Investigation; Crewmen, Stowaways, S-Visa Holders, 235(c) cases; Historical Category for system migration only; Relief Granted - Extended Voluntary Departure; and, Voluntary Return under Safeguards

Starting in FY2009, ICE began to "lock" removal statistics on October 5th at the end of each fiscal year and counted only the aliens whose removal or return was already confirmed. Aliens removed or returned in that fiscal year but not confirmed until after October 5th were excluded from the locked data and thus from ICE statistics. To ensure an accurate and complete representation of all removals and returns, ICE will include the removals and returns confirmed after October 5th into the next fiscal year.

FY Data Lag/Case Closure Lag is defined as the physical removal of an alien occurring in a given month; however, the case is not closed in EARM until a subsequent FY after the data is locked. Since the data from the previous FY is locked, the removal is recorded in the month the case was closed and reported in the next FY Removals. This will result in a higher number of recorded removals in an FY than actual departures.
